

Are excess tokens taking up valuable vault space?

OSBORNE COINAGE
is your simple solution to gaming destruction!

Licensed in most gaming jurisdictions

- We are licensed to make or destroy your chips

Security you can see

- Four cameras videotape the entire operation
- A video tape is available at no extra charge

Quietest mobile destruction rig on the road

- So quiet you can still hold a conversation
- Your guests won't even know we're there

Osborne is a premier supplier of slot tokens in the U.S. We are also a trusted and licensed destroyer of your tokens. We make the process simple and legal, providing with you with full documentation and accountability as well as two options for secure destruction. Plus, because destroyed tokens have scrap value, Osborne returns this money back to your casino! You'll not only get rid of the excess token problem, you'll **GET THE BEST PRICE FOR DOING SO!**

On-site Mobile Destruction Truck

Osborne offers two options for token destruction:

1) On-Site Destruction:

- We'll come to your casino, load at your dock and remain on the premises to destroy your tokens. We can set up away from the dock so Operations will hardly know we're there!
- Our small, 30' truck can maneuver wherever we need to. And because our system is self-powered, we will need nothing extra from your casino!
- With our quiet cut technology, we minimize the noise and disruption on your property!
- We offer on-site accounting, video documentation and reconciliation of your destroyed chips and tokens!

Easy-To-Load Shipping Box for Off-site Destruction

2) Off-Site Destruction:

- Use our free easy-to-load token boxes and just ship your tokens to us. We'll handle the rest!
- This option is the most economical, bringing you the best price for your scrap tokens!
- Because you can ship and forget about it, there is minimal impact on your casino operations!

If your casino is ready to turn excess token inventory into cash, call today about our next regular destruction date in your area!
